County Renews Agreement with State for Surplus Distribution

Jones County Commissioners Monday renewed their agreement with the State Welfare Board for distribution of surplus commodities and once more spelled-out eligibility requirements.

The court asked that the county again be certified for 1600 persons to receive the surplus foods — the same as last year. For the month just closed, 1256 persons participated in the program but the total has been over 2,000.

It was brought out Monday that there are more than 900 recipients of old age assistance in the county and possibly a hundred children who get help under the Aid for Dependent Children program. When these two totals are subtracted from the 1256 total, the picture for the county is more favorable.

March 24 and again on March 31, 1966.

A Look At the Four School Plans

By Bob Craig
Last week in this space we looked at why the school needs more space and this week we will look at the different plans being studied by the Board of Trustees to solve this need.

The board has considered four different approaches to the problem of proving not only the space needed but also the facilities needed by the school.

All of the figures used in the plans are estimates and would be subject to architectural plans and bids.

The plans are listed as one, two, three and four for easy reference but the order has no bearing on how the plans are rated by the board or by the school officials.

Plan One
The first plan would call for an addition on to the elementary and junior high buildings and new addition south of the high school band hall. This would provide at least 12 classrooms, study hall and library.

The additions on to the elementary campuses would

be eight rooms and would be used by the first eight grades. The addition at the high school would contain a library study hall and four classrooms.

The total cost of the remodeling and additions is estimated at \$451,450. Because the present buildings that would have the additions added on them are from 19 to 37 years old the financing would have to be held to no more than 15 years.

The estimate on this plan includes bringing all of the buildings up in good shape.

Plan Two
Under plan two a building would be constructed on the school property near the football stadium that would be used to house part of the first six grades. No cafeteria or auditorium would be included in this building.

The plan would include \$100,000 to remodel the present buildings to bring them up to the point that they could handle the laboratories and other needs.

This plan would require the

shifting down of grades so that the freshman class would move into the junior high building with other classes moving to make the room.

This building and remodeling would cost approximately \$301,000, and would be financed with up to 25 year bonds.

Plan Three
In plan three the board has considered building a complete new high school except for the gym, auditorium and cafeteria, on the high school campus south of the band hall. The present vocational agriculture building would need to be removed.

This building would house the top four grades and present high school building would house the seventh and eighth grades. The estimated enrollment of the two would be about 500 students.

This plan includes \$90,000 to repair the present buildings and the total cost is estimated at \$500,000 and could be financed with as much as 25 year bonds.

Plan Four
The final plan would be to construct a completely air con-

ditioned junior high or high school on the school's property near the football stadium. While this could be either a junior high or high school the high school seems to be the most favored of the two.

If the four year high school is built the present high school building would be used to house the seventh and eighth grades which in turn would take care of the classroom shortage at the lower level.

This plan includes \$42,000 for repair of the present buildings. It is explained that the reason the figure is lower in this plan than in the others is because the expensive library and science laboratories would be in the new building and the junior high could use the present high school laboratory with very little expense.

The total cost of this plan is estimated at \$750,000.

Next week we will look at how the plans would be financed and how tax rate is set to take care of both the buildings and the operation of the school.

Garden Club Prepares for Annual Flower Show with Program Fri.

Mrs. Joe Hudspeth was hostess for the Hamlin Garden Club meeting Friday afternoon. The program was directed by Mrs. Arlie Cassie. Mrs. Joe L. League gave "Conditioning Cut Flowers and Placement Show Schedule." She said the most important feature of a placement show is that it must complement the home or homes in which it is held. Therefore, all exhibits should be created to suit the place or area where they are to be displayed.

When flowers are to be conditioned for arrangements attention is given to the time of cutting plant material from the garden and the cool of the evening is the best time. Recently experiments have proved that less shock is sustained by cut material if it is placed in water immediately and the water not too much colder than the surrounding air. One of the treatments for conditioning flowers for arrangements is to add one table sugar to each quart of water for hardening chrysanthemums, daisies, petunias, sweetpeas and verbenas.

Mrs. Dick Maberry gave a reading, "Flower Show."

A small flower show was staged with all interpretative designs carrying out the theme "The Fulfillment of Easter." Those participating in the show and the names of their arrangements were Mrs. John

Ed Day, "Mary, Mother of Jesus"; Mrs. W. B. Britton, "Jesus' Ministry"; Mrs. B. B. Colwell, "Entry into Jerusalem"; Mrs. Harold Bonner, "Gethsemane"; Mrs. L. B. Williams, "The Crucifixion"; and Mrs. League, "The Resurrection."

Mrs. LaFoy Patterson presided at the business session. The collect was led by Mrs. Britton. Members drew places for the Garden Club Flower Show to be held April 28.

Visitors included Mrs. Kenneth Holloway of Vega, daughter of Mrs. Tarlton Willingham, and Mrs. John Richey of Plains, Mrs. Hudspeth's daughter.

Mrs. Holly Pardue Toler presented the program on "Literature." She gave a very interesting list of the books or types of books and authors every well read person should read. "The more you read, the more you want to read" was the basic of her program.

Mrs. Dewey Nunley presided over the business meeting. The following officers were elected for the coming year: president, Mrs. Jack Willingham; vice president, Mrs. David Casey; corresponding secretary, Mrs. Holly Pardue Toler, recording secretary, Mrs.

AUSTIN—The Texas Department of Public Safety reminds motorists that vehicle inspection time is at hand again. Regardless of the age of your car, it must bear the 1965 inspection sticker by the April 15 deadline...so why not avoid long lines and needless delay, have your car inspected today.

agency to destroy all state authority over voting procedures, said Gov. John Connally.

"A deliberate, shocking attempt to abuse Texas," charged Atty. Gen. Waggoner Carr. He plans to challenge the right of the Justice Department to delve into such details of election as registration dates.

Road Beauty Bill Hit — Outdoor advertisers, motel owners, tourist attraction operators and salvage dealers at a public hearing here vigorously attacked standards for implementing new federal legislation aimed at beautifying highways by policing billboards and junkyards.

In two days of testimony before Paul E. Warren, U. S. Bureau of Public Roads Examiner, 61 witnesses hammered at the detailed standards, although many said they supported the original intent of the bill.

Most said the regulations proposed by the U. S. Department of Commerce would destroy or seriously damage their businesses.

In addition to witnesses' testimony, the examiner received 84 written statements.

Final regulations will not be adopted until hearings have been concluded in all 50 states and Puerto Rico.

Courts Speak — State Supreme Court will review on May 4 a suit to force reapportionment of Midland County commissioner's precincts to require substantially equal population in each. A district court ordered the reapportionment, but El Paso Court of Civil Appeals reversed the decision.

Supreme Court refused for second time to hear an appeal from judgment against the S. W. Richardson estate for failure to pay state, county and school property taxes on 32,750-acre St. Joseph Island in 1960 and 1961.

Austin District Court temporarily enjoined operations of Marketmakers Inc. of Beverly Hills, Calif., three Texas-organized corporations and eight individuals. Attorney General Carr has described the operations as a "pyramid club scheme" (similar to old chain-letter clubs) which has defrauded hundreds.

Texas Grows — Texas is 13,151 miles bigger than any other thought. New acreage was discovered after the first detailed study of Texas' area in 20 years was completed by Land Commissioner Jerry Sadler. Report shows the state contains 177,052,700 acres, or 276,600 square miles.

However, Alaska's 571,065-square-mile area still makes Texans live in the second largest state in the Union.

Auto Registrations Puts County Funds In Good Shape

Receipt of funds from automobile registrations has put the operating funds of the four Jones County commissioners in good shape with all showing a healthy balance at the close of business March 31.

Precinct 1 road and bridge fund stands at \$20,329.35; Precinct 2, \$12,381.36; Precinct 3, \$8,920.53; and Precinct 4, \$17,681.17.

In addition, Precinct 1, 3 and 4 have money in the Lateral Road Fund.

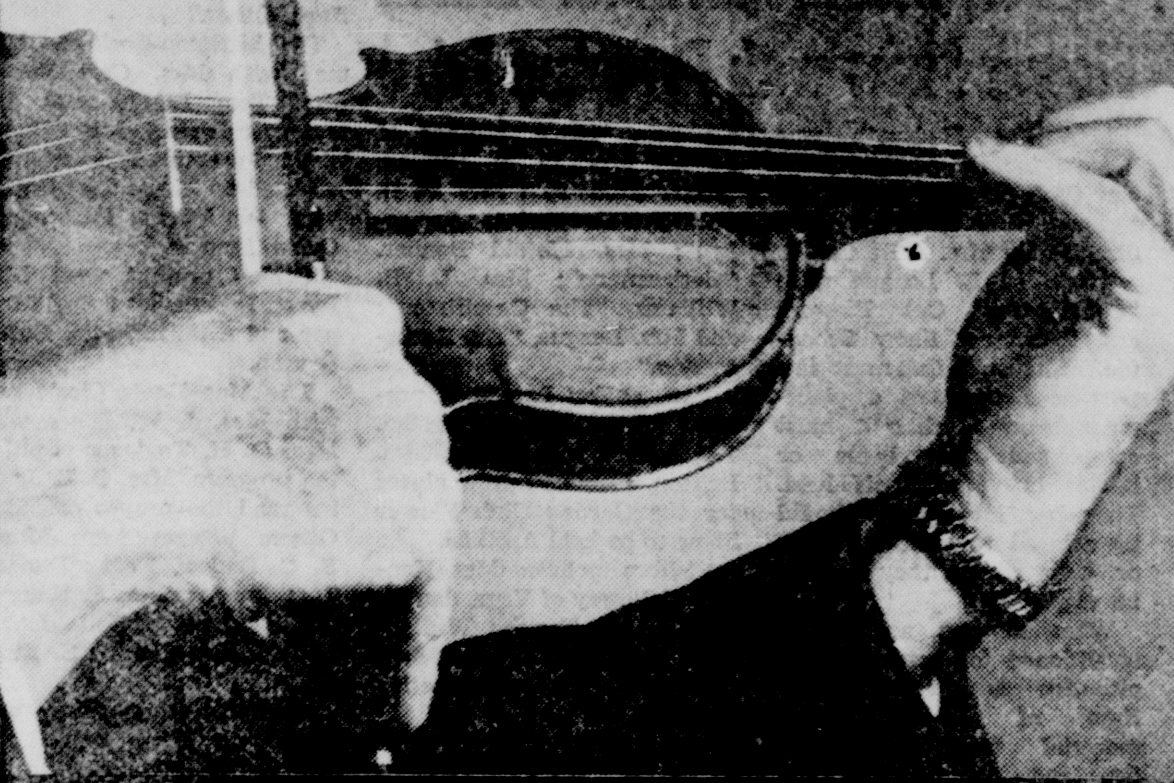

Commissioner Tom Boyd of Precinct 2 said one more large allocation of funds would come auto license fees this year.

Ten inches of snow equals about one inch of rain.

We all thrill to a...

FAMILIAR TUNE

It is so soothing, comforting, and pleasing to listen to our favorite tunes when played by capable artists. These tunes can make our minds wander back to pleasant memories of days gone by, and also awake us to new joys. Each Sunday we have the opportunity to be thrilled by the preaching of God's word, and the story of God's great love for us. Attend church Sunday and enjoy worshipping God with others.

The Church is God's appointed agency in this world for spreading the knowledge of His love for man and of His demand for man to respond to that love by loving his neighbor. Without this grounding in the love of God, no government or society or way of life will long persevere and the freedoms which we hold so dear will inevitably perish. Therefore, even from a selfish point of view, one should support the Church for the sake of the welfare of himself and his family. Beyond that, however, every person should uphold and participate in the Church because it tells the truth about man's life, death and destiny; the truth which alone will set him free to live as a child of God.

Highlights AND Sidelights

TEXAS PRESS ASSOCIATION

Austin — Texas school teachers are planning a big push for another pay raise.

This time it will be for a \$500-a-year increase with a built-in adjustment to keep their salary level equal to the national average.

They will try to sell the 1967 Legislature on this plan — on the heels of a \$100,000-000 raise voted then in 1965.

Legislative candidates already have been polled by the Texas State Teachers Association. More than the 415 candidates responded to the TSTA questionnaire on salary increases, retirement benefits and a statewide sick leave program. Off the 212 who responded, three-fourths reportedly favored the salary plan which would move the teachers to the national average next year and set up machinery "to keep them there automatically without a biennial bloodletting legislative fight." Support was said to be almost identical for retirement and sick leave propositions.

TSTA's salary proposal calls for adjusting the base pay at the beginning of each biennium to insure that it remains at the nationwide average. This likely will mean increases in teacher pay every two years since the "average" will automatically rise with each Texas hike in pay.

Minimum salary for beginning teachers today, in Tex. is \$4,104. Average is \$5,950. Texas now ranks 29th in the nation in teacher pay. . . or four states below the average.

Gov. John Connally reminds that a blue ribbon study committee is at work on a long-range survey of school needs. He also points to possible need for overhauling of school finance formulas.

Connally is a firm believer in local districts financing a

greater share of the cost of education. He remains uncommitted to any specific program, and cautiously observes that he must consider overall state needs in making recommendations that would necessarily require new taxes.

A 3 cents per pack in cigarette taxes took care of last year's teacher pay raise.

Austin — Federal authorities think Texans should get more chances to register for voting in this year's elections.

Department of Justice motion before a three-judge U. S. court requests supplemental registration periods of April 8-19 for primaries; and August 22-October 8 for the November general election.

Justice Department attorneys consider the March 3-17 registration period "inadequate."

Although federal attorneys commended Texas officials for "diligence and good faith" in meeting their responsibilities under the initial free registration, they made these complaints:

Forty-four per cent of Texas counties opened no substations for registration outside courthouses; 67 per cent of county registration offices did not remain open at night; and 47 per cent of counties added no deputy registrars.

Most of the 635,600 voters who registered last month, the Justice Department calculated, signed up during the second week of the March 3-17 period. Many more would have signed up in another week, the motion contended.

Although there are now 2,975,000 Texans registered (or 56 per cent of total potentially eligible adults), about 2,000,000 more remain unregistered, the Justice Department said.

"Frustrating harassment" or an attempt by the federal a-

THE HAMLIN HERALD

FAIRVIEW NEWS...

By Mrs. Elmer Joiner

Easter Sunday has come and gone, all of the new bonnets have been worn, but they were certainly worn with one hand holding them on for a stiff wind was blowing from the South. Some clouds gathered late in the day but all signs of them are gone this Monday morning. If it had only sprinkled on Easter Sunday we might have felt like the old saying might be true, if it rains on Easter Sunday it will rain for five Sundays. We might come nearer getting a sandstorm five Sundays the way it looks from here.

The members of the church met last Wednesday night for the business discussion, as planned. After the discussion coffee, cookies were served.

Rev. R. M. Babb came back again Sunday and preached both services. He was accompanied by his wife and they took lunch with the Woodrow Goodwins. The Winslow Grays also ate with them.

Mr. and Mrs. H. L. Ford went to Saginaw, Tex., last Tuesday night and spent the night with his cousin, Mr. and Mrs. S. T. McDaniel, going on to Denton to bring Nancy home for Easter holidays.

Since Nancy is taking doing over furniture as part of her school work, she took the chair from the church and re-finished and re-upholstered it. It looks very pretty, looks like a professional job, thanks a lot, Nancy.

Mr. and Mrs. Jimmy Holmes and Melody spent the Easter holidays with his parents Mr. and Mrs. Flavil Holmes. Mr. Holmes, mother, Mrs. Alma Holmes, is also spending some time with them. They were all in church with Mrs. Holmes Sunday morning. Mr. Holmes decided that he had better not go, although he is feeling better and out of his chair, he has been given permission to stir around some.

Mr. and Mrs. Joe R. Rosenbaum were also Sunday morning visitors in church, having spent the weekend with his parents, the Fred Rosenbaums.

It is supposed that Mr. and Mrs. Henry had more going, and company, than they could handle over the weekend, for they didn't make it out Sunday night as they planned. They may be young in heart and love to go and have company, as many people of this day do not seem to find time for, but sometimes our bodies yell quits.

Saturday night the Henrys attended the wedding of their niece, Ann Henry, of Rule. Then they were expecting lots of company Sunday night.

with eighteen for dinner, Sunday, so they must have all come.

Linda Goodwin went to Lubbock, with her friend Betty Daniels, to spend the weekend. Betty had spent last week with Linda, as her family are all in Lubbock at the bedside of a sister, Julie, who is in serious condition in Methodist Hospital, in Lubbock. The sister had fallen down a flight of stairs and has been in serious condition since, but they think she is improving.

Visited with Mrs. Lois Hampton, last Thursday afternoon, after attending a meeting of the West Texas Fair committee, regarding the Home Demonstration Club booths at the fair. Mrs. Hampton was not feeling up to par, since she had been sick, but was recovered enough that she went to the Rehab Center Thursday. She has one of the special crutches, made for people in her condition, and has been walking quite a bit with it.

Mrs. Woodrow Goodwin visited with Alma Goodwin, of Anson, last Tuesday morning. While there they went to the Anson Hospital to visit with a cousin, Mrs. Beulah Neal.

Saturday afternoon visitors of Mrs. Winslow Gray were Alfred Dutton and Mrs. Harry Kendricks and daughter, all of Earth, Texas.

Ronald Joiner is spending the day with his grandparents this Monday and it seems that he is interrupting the sparrows nest building, with his BB gun. They are a pesky nuisance around the house, wish there was a way to rid the premises of them.

Nothing keeps a good man down

(like a too-small education.)

It's sad. But true! Unless you've got a good education, you haven't got what it takes... to move up in the world today. Fact is, opportunities are few and far between for people who settle for less than a good education.

Don't let it happen to you. Get a good education while the getting's good... before you start to work. A good education qualifies you for a better job... a better salary... a better future,

too.

So, if you're in school now... stay there! Learn all you can for as long as you can. If you're out of school, don't forget that there's plenty of valuable training available outside the classroom. For details, visit the Youth Counsellor at your State Employment Service. Remember, a good education isn't a luxury today. It's an absolute necessity.

"Galveston or Bust!" was the junior-senior cry last week. Well, they made it. The long ride was tiresome, but when they reached their goal, everyone was full of spirit. They did many exciting things. They watched the Minnesota Twins and Houston Astros play in the "eighth wonder of the world, the Astrodome." They toured the space center in Houston, and everyone agreed it was very thrilling. They went to movies, played miniature golf, went swimming, rode motorcycles and went to a carnival. They ate food from a different nation.

at each meal.
The freshmen and sophomores toured the Abilene Reporter Building. Katherine Duff, graduate of Sylvester High, conducted the tour. The students also toured the Coca-Cola Bottling Company.

Easter Cantata Presented Sunday

An Easter cantata, "Let Us Follow Him," was presented Sunday evening by the Neinda Baptist Girls Choir, directed by Mrs. Tom Wise.

Reba Jackson played the piano accompaniment and was soloist. Karen Jackson played a flute solo.

Other members of the choir were Terry Gregory, Carolyn and Carla Stanford, Lana Lyon, Virginia Collins, Sonja and Mignon Williams, Latrese Williams, Janice Hardy and Tracy Gregory.

"Just think," said a senior, "we only have six weeks before we graduate."

"I know," replied another senior. "Lately that is all that I think about."

"Get your chins off the ground," commanded another senior. "We have something great to look forward to — the senior trip!"

The seniors will be leaving on their trip through Texas on May 3 and will return on May 7. The class had a choice of where they wanted to go and they decided on a Texas tour. The class will tour the following places: Austin, San Marcos, San Antonio, Houston, Dallas, and Fort Worth. The seniors are looking forward to an enjoyable and educational trip.

The word "Work" is running through the band members' heads. Saturday is the big day! The Hamlin High Band will go to Sweetwater for U.I.L. Concert Contest. If at all possible, go to Sweetwater and hear our band play. Whether or not we are all there, let's still be behind them all the way!

If you want to see some real action, drive by Hamlin High School around four o'clock. In front of the school you will find many girls who are members of the Pep Squad working diligently in hope of becoming a cheer leader or a majorette for the coming year. At the back of the school you will find the tennis court filled with just about everyone.

Thursday, April 14, the tennis teams, coached by Mr.

Wink will go to Abilene for a meet.

For the last three weeks, the National Honor Society has been sponsoring a "Spring Clean-Up". Each member was given a room and every Monday morning he decorates his room with a clever poster or sign. "Happiness" is this week's theme.

The Junior-Senior Banquet will be May 13. No news is available about it, because of the "lip sealed" juniors. They have planned this banquet, and are doing a good job of keeping it a secret.

A Look At the Four School Plans

By Bob Craig
Last week in this space we looked at why the school needs more space and this week we will look at the different plans being studied by the Board of Trustees to solve this need.

The board has considered four different approaches to the problem of proving not only the space needed but also the facilities needed by the school.

All of the figures used in the plans are estimates and would be subject to architectural plans and bids.

The plans are listed as one, two, three and four for easy reference but the order has no bearing on how the plans are rated by the board or by the school officials.

Plan One
The first plan would call for an addition on to the elementary and junior high buildings and new addition south of the high school band hall. This would provide at least 12 classrooms, study hall and library.

The additions on to the elementary campuses would

be eight rooms and would be used by the first eight grades. The addition at the high school would contain a library study hall and four classrooms.

The total cost of the remodeling and additions is estimated at \$451,450. Because the present buildings that would have the additions added on them are from 19 to 37 years old the financing would have to be held to no more than 15 years.

The estimate on this plan includes bringing all of the buildings up in good shape.

Plan Two
Under plan two a building would be constructed on the school property near the football stadium that would be used to house part of the first six grades. No cafeteria or auditorium would be included in this building.

The plan would include \$100,000 to remodel the present buildings to bring them up to the point that they could handle the laboratories and other needs.

This plan would require the

shifting down of grades so that the freshman class would move into the junior high building with other classes moving to make the room.

This building and remodeling would cost approximately \$301,000, and would be financed with up to 25 year bonds.

Plan Three
In plan three the board has considered building a complete new high school except for the gym, auditorium and cafeteria, on the high school campus south of the band hall. The present vocational agriculture building would need to be removed.

County Renews Agreement with State for Surplus Distribution

Jones County Commissioners Monday renewed their agreement with the State Welfare Board for distribution of surplus commodities and once more spelled out eligibility requirements.

The court asked that the county again be certified for 1600 persons to receive the surplus foods — the same as last year. For the month just closed, 1256 persons participated in the program but the total has been over 2,000.

It was brought out Monday that there are more than 900 recipients of old age assistance in the county and possibly a hundred children who get help under the Aid for Dependent Children program. When these two totals are subtracted from the 1256 total, the picture for the county is more favorable.

Garden Club Prepares for Annual Flower Show with Program Fri.

Mrs. Joe Hudspeth was hostess for the Hamlin Garden Club meeting Friday afternoon. The program was directed by Mrs. Arlie Cassle. Mrs. Joe L. League gave "Conditioning Cut Flowers and Placement Show Schedule." She said the most important feature of a placement show is that it must complement the home or homes in which it is held. Therefore, all exhibits should be created to suit the place or area where they are to be displayed.

When flowers are to be conditioned for arrangements attention is given to the time of cutting plant material from the garden and the cool of the evening is the best time. Recently experiments have proved that less shock is sustained by cut material if it is placed in water immediately and the water not too much colder than the surrounding air. One of the treatments for conditioning flowers for arrangements is to add one table sugar to each quart of water for hardening chrysanthemums, daisies, petunias, sweetpeas and verbena.

Mrs. Dick Maberry gave a reading, "Flower Show."

A small flower show was staged with all interpretative designs carrying out the theme "The Fulfillment of Easter."

Those participating in the show and the names of their arrangements were Mrs. John

Ed Day, "Mary, Mother of Jesus"; Mrs. W. B. Britton, "Jesus' Ministry"; Mrs. B. B. Colwell, "Entry into Jerusalem"; Mrs. Harold Bonner, "Gethsemane"; Mrs. L. B. Williams, "The Crucifixion"; and Mrs. League, "The Resurrection."

"A deliberate, shocking attempt to abuse Texas," charged Atty. Gen. Waggoner Carr. He plans to challenge the right of the Justice Department to delve into such details of election as registration dates.

Road Beauty Bill Hit — Outdoor advertisers, motel owners, tourist attraction operators and salvage dealers at a public hearing here vigorously attacked standards for implementing new federal legislation aimed at beautifying highways by policing billboards and junkyards.

In two days of testimony before Paul E. Warren, U. S. Bureau of Public Roads Examiner, 61 witnesses hammered at the detailed standards, although many said they supported the original intent of the bill.

Most said the regulations proposed by the U. S. Department of Commerce would destroy or seriously damage their businesses.

In addition to witnesses' testimony, the examiner received 84 written statements. Final regulations will not be adopted until hearings have been concluded in all 50 states and Puerto Rico.

Courts Speak — State Supreme Court will review on May 4 a suit to force reapportionment of Midland County commissioner's precincts to require substantially equal population in each. A district court ordered the reapportionment, but El Paso Court of Civil Appeals reversed the decision.

Supreme Court refused for second time to hear an appeal from judgment against the S. W. Richardson estate for failure to pay state, county and school property taxes on 32,750-acre St. Joseph Island in 1960 and 1961.

Austin District Court temporarily enjoined operations of Marketmakers Inc. of Beverly Hills, Calif., three Texas-organized corporations and eight individuals. Attorney General Carr has described the operations as a "pyramid club scheme" (similar to old chain-letter clubs) which has defrauded hundreds.

Texas Grows — Texas is 13,151 miles bigger than any other thought. New acreage was discovered after the first detailed study of Texas' area in 20 years was completed by Land Commissioner Jerry Sadler. Report shows the state contains 177,052,700 acres, or 276,600 square miles.

However, Alaska's 571,065-square-mile area still makes Texans live in the second largest state in the Union.

Auto Registrations Puts County Funds In Good Shape

Receipt of funds from automobile registrations has put the operating funds of the four Jones County commissioners in good shape with all showing a healthy balance at the close of business March 31.

Precinct 1 road and bridge fund stands at \$20,329.35; Precinct 2, \$12,381.36; Precinct 3, \$8,920.53; and Precinct 4, \$17,681.17.

In addition, Precinct 1, 3 and 4 have money in the Lateral Road Fund.

Commissioner Tom Boyd of Precinct 2 said one more large allocation of funds would come auto license fees this year.

STATE CAPITAL Highlights AND Sidelights by Vern Sanford TEXAS PRESS ASSOCIATION

Austin — Texas school teachers are planning a big push for another pay raise.

This time it will be for a \$500-a-year increase with a built-in adjustment to keep their salary level equal to the national average.

They will try to sell the 1967 Legislature on this plan — on the heels of a \$100,000,000 raise voted them in 1965.

Legislative candidates already have been polled by the Texas State Teachers Association. More than the 415 candidates responded to the TSTA questionnaire on salary increases, retirement benefits and a statewide sick leave program. Off the 212 who responded, three-fourths reportedly favored the salary plan which would move the teachers to the national average next year and set up machinery "to keep them there automatically without a biennial bloodletting legislative fight." Support was said to be almost identical for retirement and sick leave propositions.

TSTA's salary proposal calls for adjusting the base pay at the beginning of each biennium to insure that it remains at the nationwide average. This likely will mean increases in teacher pay every two years since the "average" will automatically rise with each Texas hike in pay.

Minimum salary for beginning teachers today, in Tex. is \$4,104. Average is \$5,950. Texas now ranks 29th in the nation in teacher pay... or four states below the average.

Gov. John Connally reminds that a blue ribbon study committee is at work on a long-range survey of school needs. He also points to possible need for overhauling of school finance formulas.

Connally is a firm believer in local districts financing a

greater share of the cost of education. He remains uncommitted to any specific program, and cautiously observes that he must consider overall state needs in making recommendations that would necessarily require new taxes.

A 3 cents per pack in cigarette taxes took care of last year's teacher pay raise.

Austin — Federal authorities think Texans should get more chances to register for voting in this year's elections.

Department of Justice motion before a three-judge U. S. court requests supplemental registration periods of April 8-19 for primaries; and August 22-October 8 for the November general election.

Justice Department attorneys consider the March 3-17 registration period "inadequate."

Although federal attorneys commended Texas officials for "diligence and good faith" in meeting their responsibilities under the initial free registration, they made these complaints:

Forty-four per cent of Texas counties opened no sub-stations for registration outside courthouses; 67 per cent of county registration offices did not remain open at night; and 47 per cent of counties added no deputy registrars.

Most of the 635,600 voters who registered last month, the Justice Department calculated, signed up during the second week of the March 3-17 period. Many more would have signed up in another week, the motion contended.

Although there are now 2,975,000 Texans registered (or 56 per cent of total potentially eligible adults), about 2,000,000 more remain unregistered, the Justice Department said.

We all thrill to a...

FAMILIAR TUNE

It is so soothing, comforting, and pleasing to listen to our favorite tunes when played by capable artists. These tunes can make our minds wander back to pleasant memories of days gone by, and also awake us to new joys. Each Sunday we have the opportunity to be thrilled by the preaching of God's word, and the story of God's great love for us. Attend church Sunday and enjoy worshiping God with others.

The Church is God's appointed agency in this world for spreading the knowledge of His love for man and of His demand for man to respond to that love by loving his neighbor. Without this grounding in the love of God, no government or society or way of life will long persevere and the freedoms which we hold so dear will inevitably perish. Therefore, even from a selfish point of view, one should support the Church for the sake of the welfare of himself and his family. Beyond that, however, every person should uphold and participate in the Church because it tells the truth about man's life, death and destiny, the truth which alone will set him free to live as a child of God.

THE HAMLIN HERALD

FAIRVIEW NEWS...

By Mrs. Elmer Joiner

Easter Sunday has come and gone, all of the new bonnets have been worn, but they were certainly worn with one hand holding them on for a stiff wind was blowing from the South. Some clouds gathered late in the day but all signs of them are gone this Monday morning. If it had only sprinkled on Easter Sunday we might have felt like the old saying might be true, if it rains on Easter Sunday it will rain for five Sundays. We might come nearer getting a sandstorm five Sundays the way it looks from here.

The members of the church met last Wednesday night for the business discussion, as planned. After the discussion coffee, cookies were served.

Rev. R. M. Babb came back again Sunday and preached both services. He was accompanied by his wife and they took lunch with the Woodrow Goodwins. The Winslow Grays also ate with them.

Mr. and Mrs. H. L. Ford went to Saginaw, Tex., last Tuesday night and spent the night with his cousin, Mr. and Mrs. S. T. McDaniel, going on to Denton to bring Nancy home for Easter holidays.

Since Nancy is taking doing over furniture as part of her school work, she took the chair from the church and re-finished and re-upholstered it. It looks very pretty, looks like a professional job, thanks a lot, Nancy.

Mr. and Mrs. Jimmy Holmes and Melody spent the Easter holidays with his parents Mr. and Mrs. Flavil Holmes. Mr. Holmes, mother, Mrs. Alma Holmes, is also spending some time with them. They were all in church with Mrs. Holmes Sunday morning. Mr. Holmes decided that he had better not go, although he is feeling better and out of his chair, he has been given permission to stir around some.

Mr. and Mrs. Joe R. Rosenbaum were also Sunday morning visitors in church, having spent the weekend with his parents, the Fred Rosenbaums.

It is supposed that Mr. and Mrs. Henry had more going, and company, than they could handle over the weekend, for they didn't make it out Sunday night as they planned. They may be young in heart and love to go and have company, as many people of this day do not seem to find time for, but sometimes our bodies yell quits.

Saturday night the Henrys attended the wedding of their niece, Ann Henry, of Rule. Then they were expecting lots of company Sunday night.

with eighteen for dinner, Sunday, so they must have all come.

Linda Goodwin went to Lubbock, with her friend Betty Daniels, to spend the weekend. Betty had spent last week with Linda, as her family are all in Lubbock at the bedside of a sister, Julie, who is in serious condition in Methodist Hospital, in Lubbock. The sister had fallen down a flight of stairs and has been in serious condition since, but they think she is improving.

Visited with Mrs. Lois Hampton, last Thursday afternoon, after attending a meeting of the West Texas Fair committee, regarding the Home Demonstration Club booths at the fair. Mrs. Hampton was not feeling up to par, since she had been sick, but was recovered enough that she went to the Rehab Center Thursday. She has one of the special crutches, made for people in her condition, and has been walking quite a bit with it.

Mrs. Woodrow Goodwin visited with Alma Goodwin, of Anson, last Tuesday morning. While there they went to the Anson Hospital to visit with a cousin, Mrs. Beulah Neal.

Saturday afternoon visitors of Mrs. Winslow Gray were Alfred Dutton and Mrs. Harry Kendricks and daughter, all of Earth, Texas.

Ronald Joiner is spending the day with his grandparents this Monday and it seems that he is interrupting the sparrows nest building, with his BB gun. They are a pesky nuisance around the house, wish there was a way to rid the premises of them.

Nothing keeps a good man down

(like a too-small education.)

It's sad. But true! Unless you've got a good education, you haven't got what it takes... to move up in the world today. Fact is, opportunities are few and far between for people who settle for less than a good education.

Don't let it happen to you. Get a good education while the getting's good... before you start to work. A good education qualifies you for a better job... a better salary... a better future,

too.

So, if you're in school now... stay there! Learn all you can for as long as you can. If you're out of school, don't forget that there's plenty of valuable training available outside the classroom. For details, visit the Youth Counsellor at your State Employment Service. Remember, a good education isn't a luxury today. It's an absolute necessity.

To get a good job, get a good education

— and also prevents messy boilovers. Gas makes the big difference because it's clean, cool, fast, safe, efficient, dependable and more economical than you-know-what. So get the modern gas range you've always wanted — on sale now at gas appliance dealers, or Lone Star Gas.

"Galveston or Bust!" was the junior-senior cry last week. Well, they made it. The long ride was tiresome, but when they reached their goal, everyone was full of spirit. They did many exciting things. They watched the Minnesota Twins and Houston Astros play in the "eighth wonder of the world, the Astrodome." They toured the space center in Houston, and everyone agreed it was very thrilling. They went to movies, played miniature golf, went swimming, rode motorcycles and went to a carnival. They ate food from a different nation.

Mr. and Mrs. Earnie Reusch, Ronnie and Roxa visited his mother, Mr. and Mrs. C. B. Trantham, Mike and Joe in White Deer.

at each meal. The freshmen and sophomores toured the Abilene Reporter Building. Katherine Duff, graduate of Sylvester High, conducted the tour. The students also toured the Coca-Cola Bottling Company.

Easter Cantata Presented Sunday

An Easter cantata, "Let Us Follow Him," was presented Sunday evening by the Neinda Baptist Girls Choir, directed by Mrs. Tom Wise.

Reba Jackson played the piano accompaniment and was soloist. Karen Jackson played a flute solo.

Other members of the choir were Terry Gregory, Carolyn and Carla Stanford, Lana Lyon, Virginia Collins, Sonja and Mignon Williams, Latrese Williams, Janice Hardy and Tracy Gregory.

"Just think," said a senior, "we only have six weeks before we graduate."

"I know," replied another senior. "Lately that is all that I think about."

"Get your chins off the ground," commanded another senior. "We have something great to look forward to -- the senior trip!"

The seniors will be leaving on their trip through Texas on May 3 and will return on May 7. The class had a choice of where they wanted to go and they decided on a Texas tour. The class will tour the following places: Austin, San Marcos, San Antonio, Houston, Dallas, and Fort Worth. The seniors are looking forward to an enjoyable and educational trip.

The word "Work" is running through the band members' heads. Saturday is the big day! The Hamlin High Band will go to Sweetwater for U.I.L. Concert Contest.

If at all possible, go to Sweetwater and hear our band play. Whether or not we are all there, let's still be behind them all the way!

If you want to see some real action, drive by Hamlin High School around four o'clock. In front of the school you will find many girls who are members of the Pep Squad working diligently in hope of becoming a cheer leader or a majorette for the coming year. At the back of the school you will find the tennis court filled with just about everyone.

Thursday, April 14, the tennis teams, coached by Mr.

Wink will go to Abilene for a meet.

For the last three weeks, the National Honor Society has been sponsoring a "Spring Clean-Up." Each member was given a room and every Monday morning he decorates his room with a clever poster or sign. "Happiness" is this week's theme.

The Junior-Senior Banquet will be May 13. No news is available about it, because of the "lip sealed" juniors. They have planned this banquet, and are doing a good job of keeping it a secret.
